

## Surface Mining Reclamation and Enforcement, Interior

## § 819.13

### § 817.200 Interpretative rules related to general performance standards.

The following interpretations of rules promulgated in part 817 of this chapter have been adopted by the Office of Surface Mining Reclamation and Enforcement.

(a)–(b) [Reserved]

(c) *Interpretation of § 816.22(e)—Topsoil Removal.* (1) Results of physical and chemical analyses of overburden and topsoil to demonstrate that the resulting soil medium is equal to or more suitable for sustaining revegetation than the available topsoil, provided that trials, and tests are certified by an approved laboratory in accordance with 30 CFR 816.22(e)(1)(ii), may be obtained from any one or a combination of the following sources:

(i) U.S. Department of Agriculture Soil Conservation Service published data based on established soil series;

(ii) U.S. Department of Agriculture Soil Conservation Service Technical Guides;

(iii) State agricultural agency, university, Tennessee Valley Authority, Bureau of Land Management or U.S. Department of Agriculture Forest Service published data based on soil series properties and behavior, or

(iv) Results of physical and chemical analyses, field site trials, or greenhouse tests of the topsoil and overburden materials (soil series) from the permit area.

(2) If the operator demonstrates through soil survey or other data that the topsoil and unconsolidated material are insufficient and substitute materials will be used, only the substitute materials must be analyzed in accordance with 30 CFR 816.22(e)(1)(i).

(d) *Interpretation of § 817.133: Postmining land use.* (1) The requirements of 30 CFR 784.15(a)(2), for approval of an alternative postmining land use, may be met by requesting approval through the permit revision procedures of 30 CFR 774.13 rather than requesting such approval through the permit application. The original permit application, however, must demonstrate that the land will be returned to its premining land use capability as required by 30 CFR 817.133(a).

An application for a permit revision of this type, (i) must be submitted in ac-

cordance with the filing deadlines of 30 CFR 774.13, (ii) shall constitute a significant alteration from the mining operations contemplated by the original permit, and (iii) shall be subject to the requirements of 30 CFR part 773 and 775.

(2) [Reserved]

[45 FR 26000, Apr. 16, 1980, as amended at 45 FR 39447, June 10, 1980; 45 FR 64908, Oct. 1, 1980; 45 FR 73946, Nov. 7, 1980; 48 FR 44781, Sept. 30, 1983]

## PART 819—SPECIAL PERMANENT PROGRAM PERFORMANCE STANDARDS—AUGER MINING

Sec.

819.1 Scope.

819.11 Auger mining: General.

819.13 Auger mining: Coal recovery.

819.15 Auger mining: Hydrologic balance.

819.17 Auger mining: Subsidence protection.

819.19 Auger mining: Backfilling and grading.

819.21 Auger mining: Protection of underground mining.

AUTHORITY: Pub. L. 95–87, 30 U.S.C. 1201 *et seq.*

SOURCE: 48 FR 19322, Apr. 28, 1983, unless otherwise noted.

### § 819.1 Scope.

This part sets environmental protection performance standards for surface coal mining and reclamation operations involving auger mining.

### § 819.11 Auger mining: General.

(a) Auger mining operations shall be conducted in accordance with the requirements of part 816 of this chapter, except as provided in this part.

(b) The regulatory authority may prohibit auger mining, if necessary to—

(1) Maximize the utilization, recoverability, or conservation of the solid-fuel resource, or

(2) Protect against adverse water-quality impacts.

### § 819.13 Auger mining: Coal recovery.

(a) Auger mining shall be conducted so as to maximize the utilization and conservation of the coal in accordance with § 816.59 of this chapter.

(b) Auger mining shall be planned and conducted to maximize
